

Alex Malinowski

Monroeville, PA | 570-233-0265 | alm508@pitt.edu

IT support professional with a B.S. in Information Technology - Cyber Security and experience supporting more than 30 retail and K-12 locations. Skilled in Active Directory, Microsoft 365, endpoint support, network infrastructure, Windows deployment, and customer-facing field service.

Technical Skills

Systems and administration: Windows, macOS, Linux (Ubuntu, Kali), Windows Server, Active Directory, Microsoft 365, Google Admin

Network infrastructure: Juniper switching, Mist wireless networking, TCP/IP, subnetting, VLAN segmentation, DHCP/DNS, NAT, VoIP, router/modem deployment

Support and deployment: Freshdesk, Incident IQ, TeamViewer, AnyDesk, FileWave, Windows Deployment Services

Cloud and virtualization: Microsoft Azure, Hyper-V, VMware, VirtualBox

Scripting and security: Python, Java, shell scripting, Git, Nmap, OSINT, CVSS, IDS/IPS, firewall testing

Professional Experience

Satellite Technician | Sky Satellite | Shelocta, PA

Apr 2025 - Jul 2026

- Worked as a certified HughesNet technician installing, configuring, and servicing HughesNet, Starlink, and DIRECTV systems across Western Pennsylvania.
- Set up routers, modems, cabling, and customer equipment; diagnosed connectivity, hardware, and network configuration issues on site.
- Trained customers on system operation, maintenance, and basic troubleshooting.

IT Support Analyst Intern | Levin Furniture | Smithton, PA

Jan 2025 - Mar 2025

- Provided corporate IT support to employees across 28 furniture retail locations through Freshdesk, VoIP, remote assistance, and onsite service.
- Managed user accounts and Microsoft 365 licenses through Windows Active Directory and Microsoft 365 Admin in an Azure hybrid environment.
- Troubleshooted, updated, and maintained Windows, iOS, and Android endpoints.
- Documented technical issues and resolutions and maintained internal support guides.

IT Intern | Cloudcast Computing | Greensburg, PA

Jan 2024 - Jun 2024

- Delivered onsite and remote IT support through a technology provider contracted by a K-12 school district, supporting the main site and 8 additional locations.
- Used Google Admin and FileWave for account and device administration; provided remote support through TeamViewer and AnyDesk.
- Configured and maintained Juniper switches and Mist wireless access points.
- Performed system imaging and deployment with Windows Server and Windows Deployment Services.

Selected Cybersecurity Project

Penetration Testing Plan | University of Pittsburgh at Greensburg | Greensburg, PA

2026

- Developed a formal statement of work covering internal and external networks, cloud, web, wireless, mobile, and IoT assets.
- Defined OSINT and Nmap enumeration, CVSS-based risk ratings, rules of engagement, testing boundaries, and reporting deliverables.

Education and Certifications

Bachelor of Science in Information Technology - Cyber Security, Minor in Computer Science

Apr 2026

University of Pittsburgh at Greensburg | Greensburg, PA
